

Bi-annual Social Safeguards Monitoring Report

Project Number: 2972 – PK, Tranche – III
{July – December, 2016}

Islamic Republic of Pakistan

Power Distribution Enhancement Investment Project
(PDEIP) – Tranche – III
Multi – Tranche Financing Facility (MFF)

Financed by the ASIAN DEVELOPMENT BANK

Prepared by

Environment & Social Safeguards Section –Management Unit
Office of the Chief Engineer (Development)
ISLAMABAD ELECTRIC SUPPLY COMPANY (IESCO)
IESCO Head Office,
Street 40, G – 7 / 4, Islamabad, Pakistan.

For Islamabad Electric Supply Company (IESCO)
Pakistan Electric Power Company (PEPCO)

This report does not necessarily reflect the views of ADB or the Government concerned, and ADB and the Government cannot be held liable for its contents.

1: INTRODUCTION

1.1 IESCO

1. Islamabad Electric Supply Company Ltd. (IESCO) is a public utility company, having more than 02 Million consumers and provides service to 04 Nos. Northern Districts of the Punjab Province (Rawalpindi, Attock, Jhelum and Chakwal); Capital Territory (Islamabad); and Southern parts of Azad Jammu & Kashmir (AJK). IESCO jurisdiction map is placed at **Annex - A**.

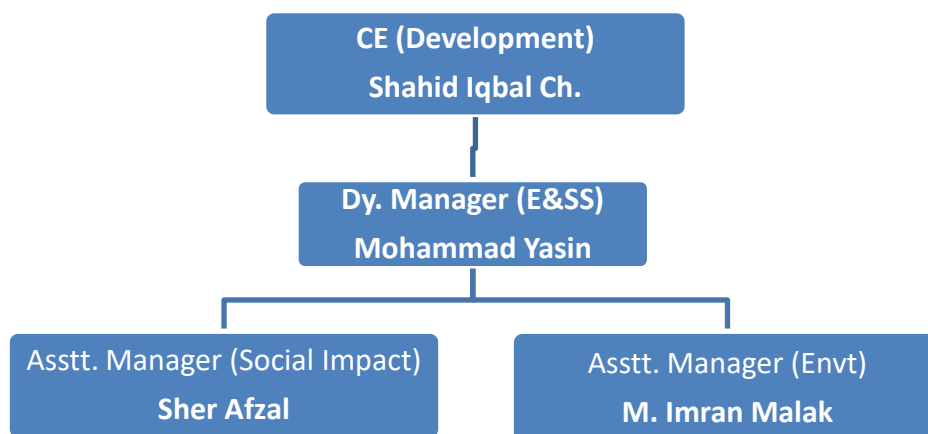

1.2 Directorate of CE (Development) / Project Management Unit (PMU)

2. To carry out and handle investment projects IESCO has established Project Management Unit (PMU) under the supervision of Chief Engineer (Development). The PMU comprises of four sections. The organizational structure of PMU - IESCO and main responsibilities of each section are given in **Annex-B**.

- i) Planning Scheduling & Coordination
- ii) Procurement
- iii) Project Finance
- iv) Environment & Social Safeguard

1.3 Environmental & Social Safeguard Section - P MU

3. The Environmental & Social Safeguard (E&SS) Section of PMU, IESCO provides an overall supervision and advisory services during the Pre - Construction phase, Construction phase & Post - Construction phase of the project. The unit also assists and advises GSC Directorate, Construction Directorate and other IESCO departments on environmental and social matters overall. Organizational structure of E&SS - MU IESCO is attached as below.

Management Structure of E&SS – PMU – IESCO.**1.4 Scope of the Work**

4. IESCO Tranche – III subproject includes 03 No. constructions of new Grid Stations, 04 Nos. Extension, 09 Nos. Augmentation, 05 Nos. Transmission Lines (New), and 03 No. Transmission Lines (Remodeling). The detailed scope of work of Tranche - III subprojects is attached at **Annex – C**.

1.5 Social Documentation, Approval & Disclosure

5. The Short Land Acquisition and Resettlement Plans (LARPs) of the Tranche-III Transmission Lines & Grid Stations (07 Nos) were approved by ADB on 12.11.2012 and disclosed on IESCO website (in English and Urdu) for public information.

Revision of Short LARPs

6. Following 07 Nos Short LARPs have been prepared and revised by IESCO and submitted to ADB for record.

- i. Revised LARP of 132 KV In-Out Chakri T/Line
- ii. Revised LARP of feeding T/Line of 132 KV Sangjani-2 Grid Station.
- iii. Revised LARP of 132 KV KTM – Chakri Road T/Line
- iv. Revised LARP of Sangjani – Zeropoint 132 KV T/ Line.
- v. Revised LARP of Burhan – New Wah 132 KV T/Line.
- vi. Revised LARP of New Rawat – Sowar 132 KV T/ Line.
- vii. Revised LARP of F/F T/line Chakri Road Grid Station

The details of documents prepared for the project are tabulated below:

Proj. No	Project Name	Documents Submission Date						LARPs Approved by ADB on	Revised LARP submitted to ADB	Contract Award Date	Current Status
		IP Checklist	IR Checklist	REA	IEE	DDR	LARP				
Grid Stations		One IP Checklist prepared for whole of Tranche-III sub-projects and submitted on July 24, 2012	One IR Checklist prepared for whole of Tranche-III sub-projects and submitted on July 24, 2012								Contractor has mobilized only to Chakri Rd G/station and started start work.

2. PRESENT STATUS OF THE PROJECT

2.1 Present Status of Civil Work.

7. The civil works of following 132 KV T/lines sub-projects of Tr - III have been awarded, and the execution of civil works are also underway. The detail of works awarded is provided below in table 2.1.

Table 2.1: Contract details

No.	Package	Lot No.	Description of Work	Awarded to	Contract Award Date	Civil work status
1	ICB-01/TR-III/ADB	I	i) 132 KV Chakri Rd G/station	M/S Sino-Steel (Pvt) Ltd (Turnkey Basis)	12-10-2015	Contractor has mobilized and work of switch yard foundation and Control House Building is under progress.
			ii) 132 KV Sangjani-2 G/station			Contractor has not mobilized. Civil Works not started
			iii) 132 KV Barakahu G/station			
2	ICB-01/TR-III/ADB	II	i) F/F 132 KV Chakri Road G/Station ii) F/F 132 KV Sangjani-2 G/Station iii) F/F 132 KV Bara Kahu G/Station. iv) Replacement of Sangjani-Zero point 132 KV T/line. v) 132 KV KTM - Chakri Road T/line	M/s ICC (Pvt), Lahore. (Turnkey Basis)	19-03-2014	Contractor has mobilized in May, 2015 Execution of civil works started in Sept., 2015. Civil work progress is attached as Annex-D
3		--	i) 132 KV In-Out Chakri Grid station T/line ii) Replacement of existing New Rewat - Sowon with new line on same route iii) Replacement of Burhan-N/Wah Cct 1 &2	Works executed by IESCO through GSC Directorate		i) Completed 100 % ii) Completed 100 % iii) 60 % (In-progress)

2.2 Orientation session for Contractors

8. In this period (July-Dec 2016) orientation sessions for M/s SINO STEEL Equipment & Engineering Corporation, China was arranged on 29-08-2016 to

discuss environment social safeguard and security issues. The E&SS officers paid a field visit on 13-12-2016 and found that the contractor is not fulfilling the requirements of environment, social safeguards and security measures.

9. IESCO raised the same issue with contractor and also informed the ADB officials who arranged a meeting for contractor in ADB resident office Islamabad to make sure the implementation of environment, social and security measures for smooth completion of the project.

10. The meetings were attended by the following IESCO / Contractors' Staff;

Name of Participants.	Designation.	Department.
Meeting dated 29-08-2016		
Mr. Mohammad Yasin	Dy. Manager(E&SS)	E&SS – MU, IESCO.
Mr. Sher Afzal.	AM (Social Impact).	
Mr. Imran Malik	AM (Environment)	M/s SINO STEEL Equipment & Engineering Corporation, China
Mr. Gao	Chief Engineer	
Mr. Sun	Communicator	
Mr. Muhammad Imran	Design Engineer (Civil)	
Mr. Muhammad Amin	Commercial Officer	
Site visit dated 13-12-2016		
Mr. Mohammad Yasin	Dy. Manager(E&SS)	E&SS – MU, IESCO.
Mr. Sher Afzal.	AM (Social Impact).	
Mr. Imran Malak.	AM (Environment).	
Meeting dated 22-12-2015		
Mr. Muhammad Yasin	Dy. Manager	E&SS – MU, IESCO.
Mr. Sher Afzal.	AM (Social Impact).	
Mr. Hu Zhenyun	Project Manager.	M/s SINO STEEL Equipment & Engineering Corporation, China
Mr. Jin Bin	Construction Manager	
Mr. Muhammad Anar Khan	Environmental Specialist	
Ms. Safia Shafiq	Environmental Specialist (Consultant)	ADB Pakistan Rasident Mission, Islamabad.
Mr. Ehtisham Khattak	Senior Project Officer (Energy)	
Mr. Zhang Lai.	Senior Energy Specialist (Energy)	

11. To facilitate the contractor for the implementation of Social Safeguards at the work site, following documents / checklists have been provided for record and Monitoring purpose;

- Role & Responsibilities of all stake holders,
- Documentation Requirement as per Contract,
- Awareness materiel i.e Hepatitis, Tuberculosis, HIV/AIDS & Drugs,

- Grievance Redress Mechanism,
- Format of On Site Complaint Register,
- Environment & Social Monitoring Checklists for;
 - a) Contractor Mobilization and Demobilization,
 - b) Contractor's Construction Camp Establishment and Operation,
 - c) Transportation of Equipments and Construction Materials,
 - d) Construction of Transmission Line,
 - e) Social Safeguard Monitoring.

2.3 Project Impacts

2.3.1 Replacement of Sangjani – Zeropoint 132 KV Transmission Line

12. This sub-project is in construction phase. The 22.5 KM replacement of Sangjani – Zero Point 132 kV transmission line subproject is traversing i) government land, ii) three housing societies in Islamabad; iii) two villages of Islamabad and iv) Jangi Sydian village of district Rawalpindi. The transmission line route already exists and one more tower/pole is added in-between two existing towers without acquiring any additional land. None of the household has been physically displaced or lost more than 10% of their productive assets.

2.3.2 Replacement of Burhan– New Wah 132 KV Transmission Line

13. This sub-project is in construction phase. The replacement of Burhan – New Wah 132 kV transmission line subproject is located in Attock District of Punjab. The 9.66 Km transmission line is traversing Private cultivated and broken land, government land, one Housing society and five villages, of District Attock. The transmission line route already exists but the construction activities have affected the crops of 238 HH. No land is acquired permanently for this subproject. None of the household is being physically displaced or lost more than 10% of their productive assets.

2.3.3 Replacement of existing New Rawat – Sowat 132 KV T / Line

14. New Rawat to Swan 132kV transmission line subproject is located in Islamabad. The sub-project has been completed by the GSC Directorate of IESCO and energized. The 9.45 Km transmission line traversed Private cultivated and broken land, three Housing societies. The construction activities of transmission line temporarily affected crops and trees of 20 households. None

of the household has been physically displaced or lost more than 10% of their productive assets.

2.3.4 132 KV Chakri Road Grid Station & Feeding Transmission Line

15. This sub-project is in construction phase. The grid station is being constructed on IESCO's own 32 kanal Land situated on chakri road located at about 20 km from Rawalpindi Sadar. To feed this Grid Station a new 15.75 km transmission line (TL) is also being constructed. No land acquisition process is involved in this subproject. The transmission line is traversing through private barren and cultivated land of five villages, temporarily affecting crops and trees. Till date the construction activities have affected the crops of 80 Nos HH. None of the household has been physically displaced or lost more than 10% of their productive assets.

2.3.5 132 KV Sangjani Grid Station & Feeding Transmission Line

16. The proposed grid station will be constructed in Multi Professional Housing Society (MPHS). The land has been acquired free of cost from the society. To feed this grid station a 02 Km long 132 KV transmission line will be constructed from the existing 220 KV grid station Sangjani. The construction activities will affect crops of 02 households. None of the household will be displaced or lose more than 10% of their productive assets.

2.3.6 KTM (I-16) – Chakri Road 132 KV Transmission Line

17. This sub-project is in construction phase. The KTM (I-16) – Chakri Road 132 kV transmission line subproject is located in Islamabad and Rawalpindi District of Punjab. The 11.5 Km transmission line is traversing through private barren and cultivated land of four villages. The construction activities of transmission line have temporarily affect crops and trees of 67 households. None of the household has been displaced or lost more than 10% of their productive assets.

2.3.7 In & Out construction at Chakri Sub-Station 132 KV T / Line

18. The In & Out construction at Chakri Sub-Station 132 kV transmission line subproject is located in Rawalpindi District of Punjab. The sub-project has

been completed by the GSC directorate of IESCO and energized. The 22.5 Km transmission line traversed through private barren and cultivated land of seven villages. The construction activities of transmission line have temporarily affected crops and trees of 422 households. None of the household has been physically displaced or lost more than 10% of their productive assets. Compensation amount of PKR 4,184,100/- has been paid to all the 422 Nos households affected by the construction of T/line.

2.3.8 Construction of Bara Kahu Grid Station and feeding 132 KV T/ Line

19. The new relocated 40 kanal site is located near Barakahu Islamabad. The project site is accessible from Barakhu. The grid station site has been purchased by IESCO from private society on mutually agreed rate of Pak Rs. 0.6 million per Kanal. The proposed grid station will be connected to the existing 132 kV Transmission line University – Nilor.

20. The proposed 132 kv feeding line is about 10 km having approx. 47 poles /towers) passing hilly area and some forest area with shrub and sparse tree cover. The Transmission line will be constructed in the barren areas of the foot hills excluding the houses or any other public infrastructure or the private land. The proposed feeding will be connected to existing 132 kV Transmission line University – Nilor.

2.4 Compensation Assessment and Payments

21. The detail of compensation assessment and payments is tabulated below. Phase wise breakup is provided at **Annex-E**. The subproject wise list of PAPs, whose compensation has been assessed/ paid in current period i.e July to December 2016, is attached at **Annex- F**.

#	Name of Work	Compensation Assessed-PKR	Compensation Paid - PKR	Balance Amount	Remarks
1	132 KV T / Line In & Out Chakri G/S	4,184,100/-	4,184,100/-	Nil	Compensation has been paid.
2	132 KV T/Line KTM (I-16) – Chakri Road	1,207,800/-	785,070	422,730/-	Payments in progress.
3	132 KV T/Line Zeropoint – Sangjani	511,500/-	511,500/-	Nil	-
4	132 KV T/Line Burhan – New Wah	4,447,740/-	2,245,780/-	2,201,960/-	Payments in progress.
5	132 KV Rawat – Sowon T/Line	1,100,120/-	1,100,120/-	Nil	Payments in progress.

6	132 KV Feeding T/line of Chakri Road Grid Station.	1,311,000/-	1,179,900/-	131,100/-	Payments in progress.
7	132 KV Feeding T/line of Bara Kahu Grid Station.	-	-	-	Compensation not involved.
8	132 KV Feeding T/line of Sagjani-2 Grid Station.	-	-	-	Compensation not assessed. The civil work not started.

2.5 Site Restoration.

22. IESCO being a responsible public utility company takes care of public interest specially compensation payment for damages and restoration of sites. All the contractors have been made aware of the proper back filling of earth work and site restoration after completion of works. IESCO environment and social officials also monitor the site restoration of completed sites during field visits. IESCO tries to ensure the site restoration to its original shape and wherever un-restored sites comes into notice, the contractor is immediately advised to make arrangement for proper restoration of the same. All the completed sites of Tranche -III sub-project sites have been properly restored.

2.6 Awareness & Trainings.

23. One orientation session has been conducted on 13-12-2016 for site staff and labors of M/s SINO STEEL Equipment & Engineering Corporation, China in this bi-annual period.

2.7 Grievance Redress Mechanism (GRM).

24. To GRM exist in IESCO to address and resolve the complaints & issues of Project Affected Persons (PAPs). IESCO has constituted a Grievance Redressal Committee (GRC) inline of the ADB Social Safeguard Policy. The committee members are as follow:

- | | | |
|----|-----------------------------------|----------|
| 1. | Project Director (GSC/C&O) | Convener |
| 2. | Deputy Manager (E&SS) | Member |
| 3. | Assistant Manager (Social Impact) | Member |
| 4. | Environment and Social Officer | Member |
| 5. | Contractor Representative | Member |
| 6. | Community Representative | Member |

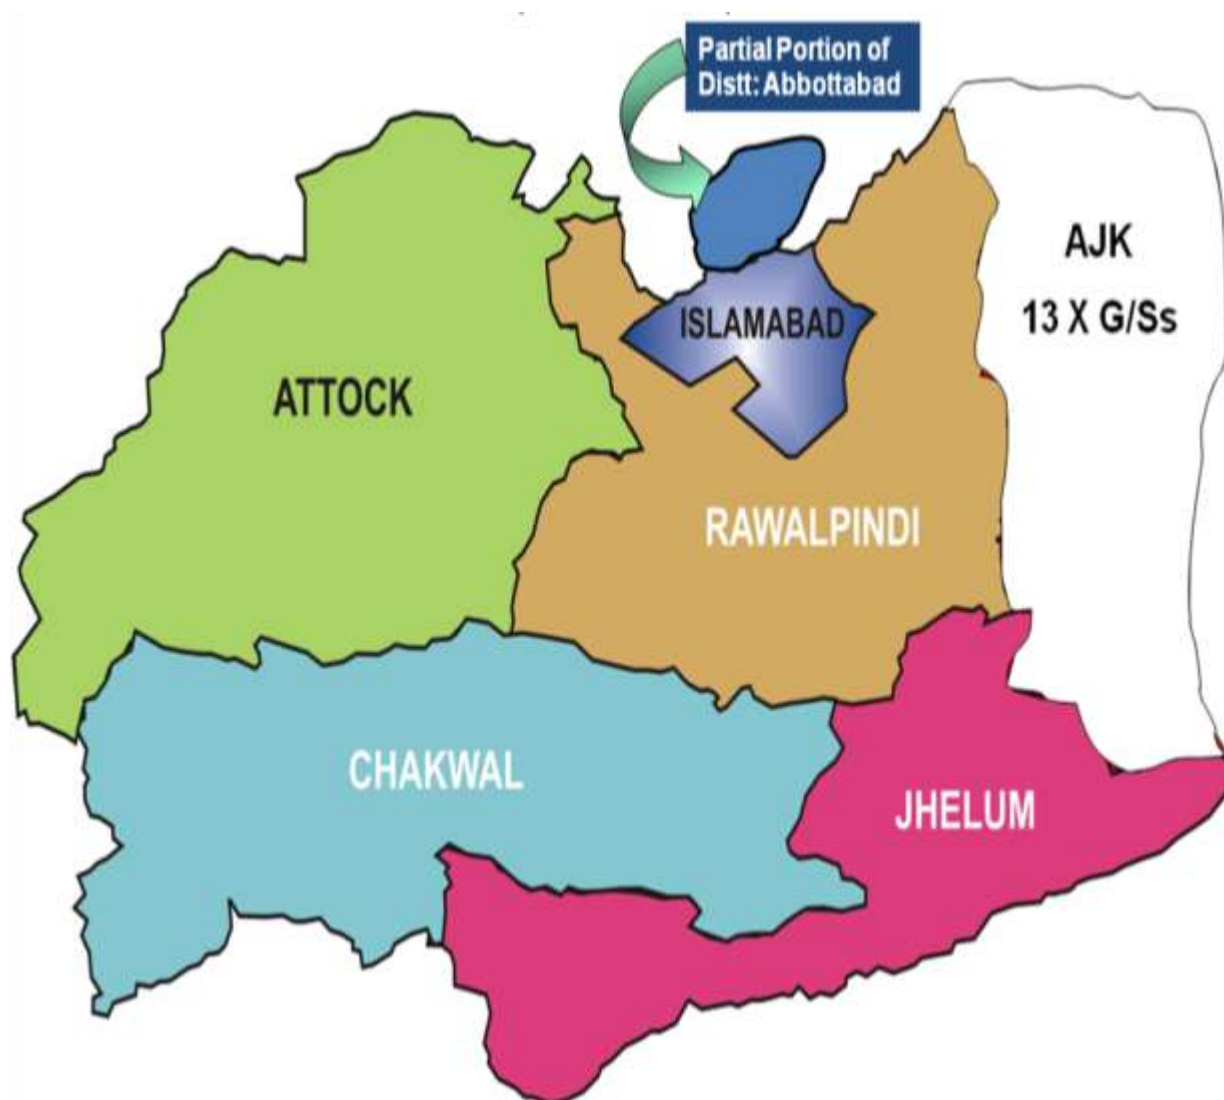

25. To facilitate Project Affects Person (PAPs) and Stakeholders for registering their complaints complaint registers have also been placed at Contractor work sites, Camp offices and PMU, IESCO.

26. Most of the times the complaints received relates to: a) delay in compensation payments; b) the amount of compensation being less valued and c) removal of dismantled material. In this period, following complaints were received.

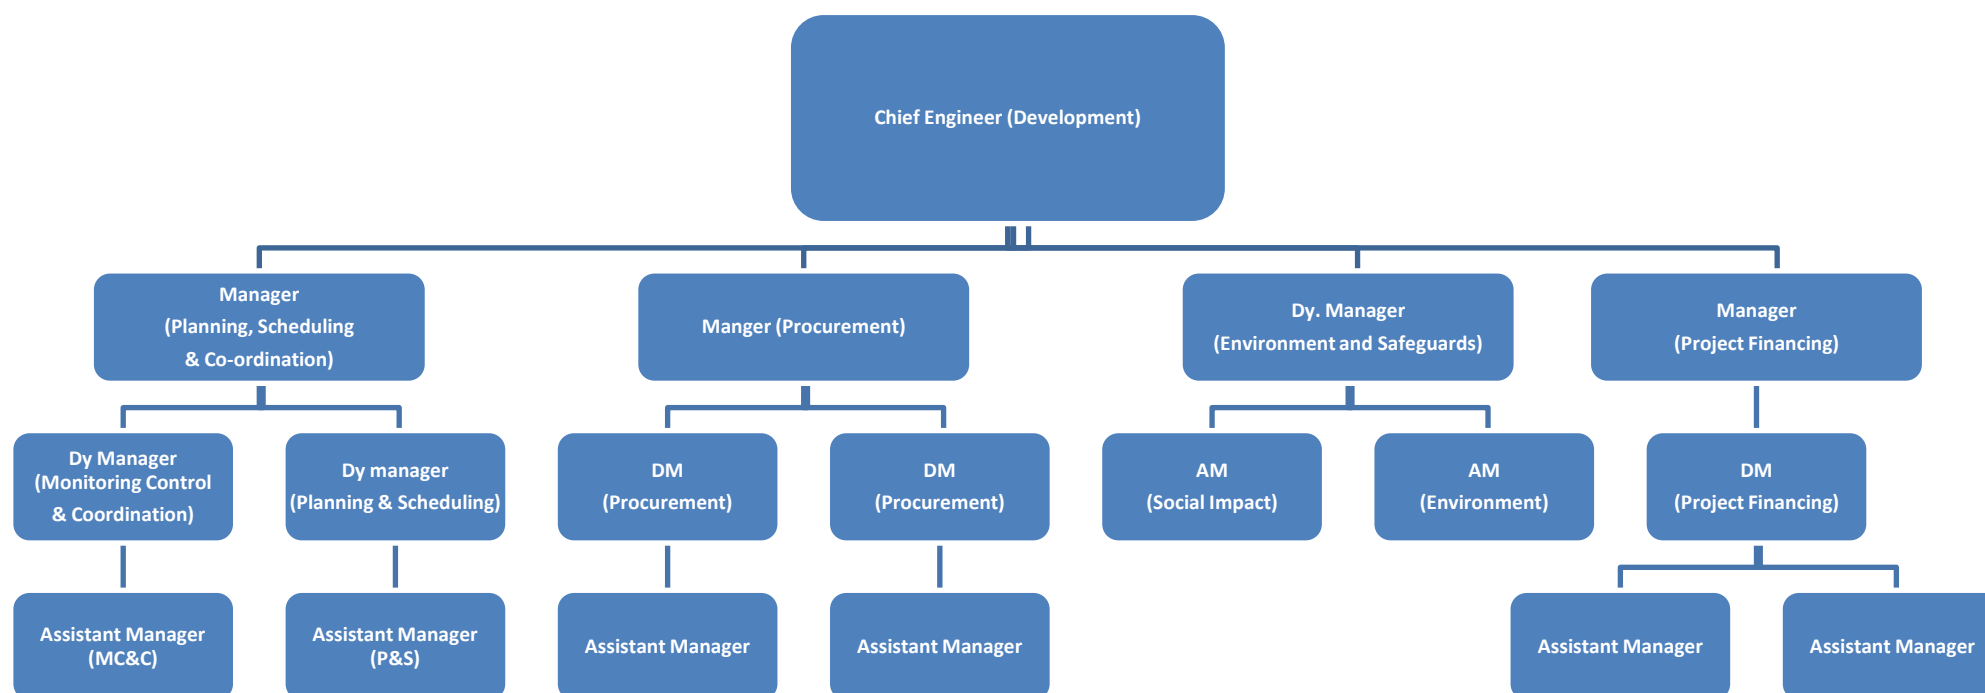

Sr. No	Complaint by	Complaint	Name of works	Remarks/ Action taken
01	Mr. Yasin Shah 24-10-2016	Delay in compensation payments	132 KV T/line F/F Chakri Road G/S	Complain resolved by paying Compensation.
02	Muhammad Tahir 08-11-2016	Site restoration not done properly	132 KV T/line I-16- Chakri Road G/s	Complain was resolved on 09-11-2016 by proper restoration of site.
03	Raja Muhammad Hanif 23-11-2016	Not allowing for construction of 03 Nos. towers in his land unless compensation is enhanced	132 KV T/line I-16- Chakri Road G/s	After successful negotiation by PD (GSC) staff and E&SS staff the issues has been resolved.
04	Raja Muhammad Altaf 23-11-2016	Not allowing the civil work being less paid		
05	Zaheer Ahmed 29-12-2016	Delay in compensation payments	132 KV T/line Burhan New Wah	Complainant informed that Compensation will be paid to him shortly. GSC directorate informed accordingly.

ANNEX - C

DETAIL SCOPE OF WORK OF TRANCHE - III SUBPROJECT

No.	Project Component	
01.	New Grid Station.	03 Nos.
	i. 132 kV Bara Kahu Grid Station.	
	ii. 132 kV Chakri Road Grid Station.	
	iii. 132 kV Sangani - II Grid Station.	
02.	Extension of Power Transformers	04Nos.
	iv. 132 kV Rajjar Grid Station.	
	v. 132 kV Fateh Jang Grid Station.	
	vi. 132 kV F - 11 Grid Station.	
	vii. 132 kV Sowon Grid Station.	
03.	Augmentation of Power Transformers	09 Nos.
	viii. 132 kV Kamalabad Grid Station.	
	ix. 132 kV KTM Grid Station.	
	x. 132 kV New Wah Grid Station.	
	xi. 132 kV Jhelum Grid Station.	
	xii. 132 kV Rawalpindi Cantt (REPCO) Grid Station.	
	xiii. 132 kV Zero Point Grid Station.	
	xiv. 132 kV I - 10 Grid Station.	
	xv. 132 kV I - 8 Grid Station.	
	xvi. 132 kV Chaklala Grid Station.	
04.	Transmission Lines (New)	04 Nos.
	xvii. 132 kV Feed for Bara Kahu Grid Station Transmission Line.	
	xviii. 132 kV Feed for Chakri Road Grid Station Transmission Line.	
	xix. 132 kV Feed for Sangjani -II Grid Station Transmission Line.	
	xx. 132 kV KTM - Chakri Road Transmission Line.	
05.	Transmission Lines (Remodeling/ Replacement)	04 No.
	xxi. 132 kV Sangjani - Zero Point Transmission Line.	
	xxii. 132 kV Burhan - New Wah Transmission Line.	
	xxiii. 132 kV New Rewat - Sowon Transmission Line.	
	xxiv. 132 kV in - out Construction at Chakri Grid Station T/ Line.	

ANNEX - D

STATUS OF CIVIL WORKS OF TRANCHE-III SUB-PROJECTS

SR. No	Description	Civil work status
Grid Stations		
1	132 KV Chakri road grid station	Work in progress
2	132 KV Sangjani-2 grid station	Work not started yet
3	132 KV Bara Kahu grid station	Work not started yet
Transmission Lines		
1	Replacement of Sangjani - Zeropoint T/Line with new Double Circuit	94% work completed
2	132 KV T/Line F/F Barakhu G/S	Work not started yet
3	132 KV T/Line F/F Chakri Road G/S from Adyala	47% work completed
4	132 KV T/Line F/F Sangjani-2 G/S	Work not started yet.
5	132 KV T/Line KTM- Chakri Road	61% work completed
6	132 KV T/Line Replacement of Burhan - N/Wah Cct 1 &2.	60 % work completed
7	Replacement of Existing New Rawat – Sowan with new line.	100% work completed on 29-05-2016.
8	In and Out Construction of 132 KV Chakri Sub Station (Additional Single Circuit)	100% work completed on 28.11.2015.
